

We are proud to host our **SECOND TOY DRIVE FOR CHILDREN WITH CANCER!**

When children of all ages go to the Maine Children's Cancer Program for their treatments, they are able to choose gifts out of the "Owie" Box to help make their visits more bearable. They often have to get poked and prodded leaving with them with sores (or owies) and that is why the gift box is called the "Owie" box.

Between October 13 and the end of the month, all of the elementary schools in our district, Sea Road, KES, Consolidated and Mildred Day School will be collecting new toys to donate to the Owie Box. Due to health and safety standards for the children they go to, all toys must be new and unused.

If you and your child would like to contribute to this project, please have your child bring a new and unwrapped toy to any one of the elementary schools. We will have a large, well marked box for the toys just inside each schools' front entrance.

If you have any questions please call the Sea Road School office 985-1105 who will direct your questions to the Roots and Shoots Group of Sea Road School which is organizing this project. Their names are Teddy Vatcher, Annie Vatcher, Casey Schatzabel, Elizabeth Cain, Katelyn Hurlburt and Kris Leslie (all 5<sup>th</sup> grade) and Kate Sprague (4<sup>th</sup> grade).

Below is a "wish list" of items for different ages, but any and all toys you can contribute will be greatly appreciated! THANK YOU!
