

**Academic Honesty Agreement**  
**2008-09**

I acknowledge that academic honesty has been clearly explained to me, and I have reviewed the district's policy on academic honesty. I understand that the level of the offense will determine the degree of consequences I will receive.

I pledge that the work I submit in completion of all assignments this year represents my own work except in places where I have acknowledged my use of other sources.

Parent Academic Honesty Agreement

I am aware of the penalties that apply to any violations of academic honesty. I have discussed academic honesty with my son or daughter, and I certify that she/he understands academic honesty and knows how to avoid violations.
