

## **MSK's Mary Hebert Named Maine's Outstanding Middle Level Educator**

At the Maine Association for Middle Level Education's Annual Conference, on October 22, Middle School of the Kennebunks 7th grade Language Arts teacher Mary Hebert was honored as the 2009 recipient of the Janet Nesin-Reynolds Outstanding Educator Award. This prestigious award is given each year to one middle level teacher in Maine.

During her 23 years in the district, Mrs. Hebert has earned the highest level of respect and admiration from her fellow professionals, her students and their parents, and within our community - not only for her skills as an educator and her tireless commitment to the profession, but for her sensitivity and devotion to the success of each and every student in her classroom.

Mrs. Hebert was honored not only for the commitment and energy she brings to all her educational undertakings on behalf of our students, but because she has an unparalleled reputation in our district for sharing the results of her work in such a way that other teachers are convinced to emulate and adopt her strategies and instructional designs.

She is outgoing, her efforts tireless, and her enthusiasm, infectious. Mrs. Hebert is also caring, compassionate, and kind. The Middle School of the Kennebunks is proud of this distinction given to one of our many outstanding and deserving teachers.
